English

ABOUT ME

As a highly motivated and enthusiastic iOS developer, I am driven by my passion for technology. My academic background from Rzeszow University of Technology in Information Systems Engineering, where I graduated with a grade of 4.5, has given me a solid foundation in the field. The MobDevFactory boot camp in iOS development, where I ranked in the top three out of 90 students, has further sharpened my skills and knowledge in the industry. I am now seeking a stable company where I can gain hands-on experience and continue to develop as an engineer. My strong technical knowledge and love for all things technology make me a valuable asset to any team. I am eager to bring my skills and passion to a dynamic and innovative organization.

EXPERIENCE

iOS Developer

Freelancer | September 2022 - present

- Supporting existing ones apps
- Work on bug fixing
- Creating custom UI components
- Screen size optimization with AutoLayout
